To Whom it May Concern:

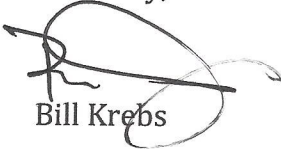

We are a small locally owned business in the Twin Cities. We have worked with WCMC for over 5 years. Our experience with WCMC started with Annette coming to our office and presenting WCMC's service. Admittedly, after Annette's presentation we were reluctant. As a small business, we were concerned with any added expenses that took away from our bottom line.

After some debate, we decided to hire them. Luckily we did as it was very soon after we had a major work-comp claim. I still remember the feeling of relief our company shared during that first interaction concerning this claim.

It was immediately apparent that we were in good hands with WCMC. They were able to guide us (in detail) on the processes and procedures we were forced to navigate to both protect our company, and facilitate the claim. My experience is that at every turn, WCMC was one step ahead. Their knowledge of the system, combined with the intelligence and work ethic of the staff is beyond compare.

Since then, we've had a few smaller claims. All were treated with the same level of professionalism and expertise as our first. Knowing that I have someone on my team that is so qualified lets me focus on growing my business. They are worth every penny!

Sincerely,

Bill Krebs
